An Agreement pursuant to which the Village is currently providing its single family and duplex residences with solid waste collection services expired in February 2010.

Accordingly, pursuant to applicable provisions of the Village Code and other legislative authority, Proposals from Qualified Prospective Contractors were solicited in a Request For Proposals dated January 15, 2010. The Proposals were evaluated, and on March 9, 2010, Choice Environmental Services of Miami, Inc. was recommended by the Village Manager for selection as the Contractor under certain service scenarios. After the Village Council chose a service scenario that ranked Contractor first, the selection of the Contractor was then ratified by Village Council motion. The necessity of Emergency Collections may only be determined upon mutual consent of the Village Manager and Contractor. Such cooperation shall include undertaking steps necessary for an appropriate response to the emergency, including reasonable assistance to the Village at the Village Manager's request for extra collections both before and after the emergency.

Contractor shall receive extra compensation above that set forth in this Agreement for Emergency Collections, provided Contractor has first secured prior written authorization from the Village Manager based on rates jointly agreed to by the Village Manager and Contractor. In the event the emergency is a Federally recognized disaster event, the extent of such extra compensation shall be limited to amounts approved for payment or reimbursement by FEMA. The Village may contract with other firms or units of government to provide the Emergency Collections. As soon as practical after severe weather or an emergency, Contractor shall advise the Village Manager and Residential Customers of the estimated time required before Regular Schedules can be resumed. At the Village's sole discretion, Contractor may be required to provide emergency services using those rates provided by the Contractor during the Solid Waste RFP process under Attachment IV-A and pursuant to Section III(J) of the RFP.

This also incorporates all other provisions of the plan provided by the Contractor pursuant to Section III(J) of the RFP.

The Contractor's request shall contain reasonable proof and justification to support the need for the rate adjustment. The Village may request from the Contractor, and the Contractor shall provide, such further information within its possession as may be reasonably necessary in making its determination. A change in any federal, State, county, or other tax law or workers compensation law shall not be a Change of Law. However, in the event that a federal, state or local entity imposes a fee, charge or tax after the date of this Agreement that applies to Contractor's operations per se, such fee, charge or tax shall be treated as a Change in Law.

The Contractor's request must be made within one hundred twenty (120) days of the occurrence of such unusual change or cost, and shall contain reasonable proof and justification to support the need for the rate adjustment. The Village may request from the Contractor, and the Contractor shall provide, such further information within its possession as may be reasonably necessary in making its determination. Under no circumstances shall this increase in the base rate for fuel costs exceed 7% of the amount of the initial base rate for services provided in the initial term of the agreement.
